HDPE & LLDPE Bags and Films, VCI Bags - VCI, Zip Lock, Custom Printed Bags - Hand and Machine Stretch Wrap

National Plastic Film Co. multi-metal vapor corrosion inhibitor (VCI) polyethylene bags and films emit a vapor that condenses on the entire surface of the part and forms a corrosion-inhibiting layer.

Our VCI bags and films are an environmentally friendly alternative to oil coating and oil coated paper. For use with ferrous and non-ferrous materials including, steel, iron, copper, brass, zinc, galvanized (zinc plated steel and iron), cadmium aluminum, nickel, nickel alloys and high boron steel.

VCI films meets the vapor inhibitor ability requirements of Type 1 MIL-PRF-22019E. VCI bags meet the vapor inhibitor ability requirements of Class 1 MIL-B-2202E
